[VIEW PRODUCT](#)

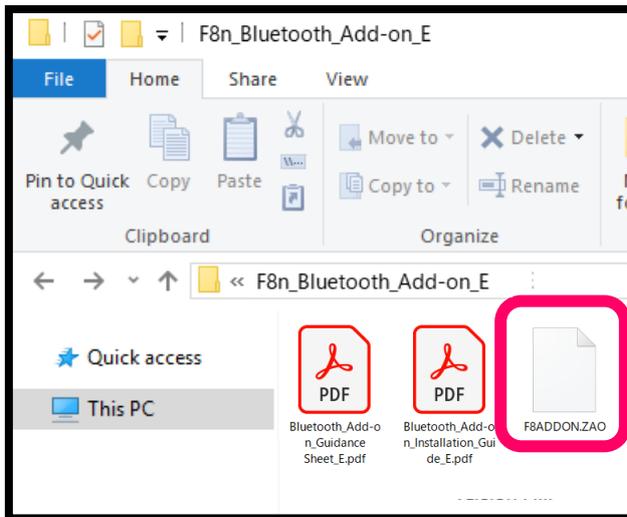

On Windows

2. Extract the ZIP file.

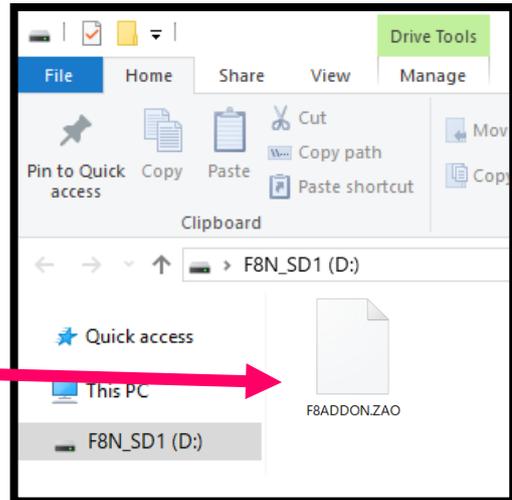

Select the folder that contains the downloaded ZIP file. Click ① “Compressed Folder Tools” followed by ② “Extract all”. This extracts the ZIP file.

3. Copy the software extension file to an SD card.
Copy the “F8ADDON.ZAO” file to an SD card.

Software extension file

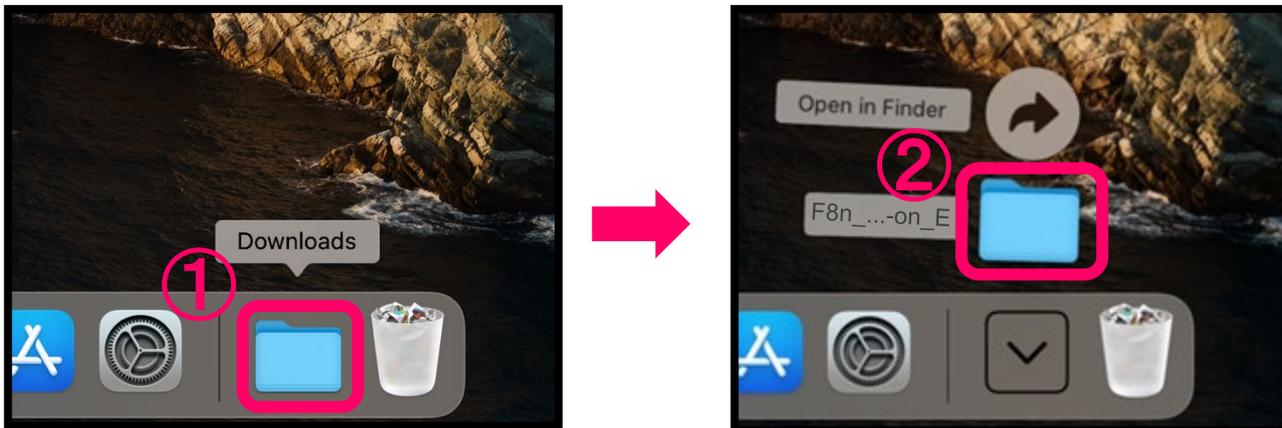

Copy the software extension file to an SD card.

On macOS

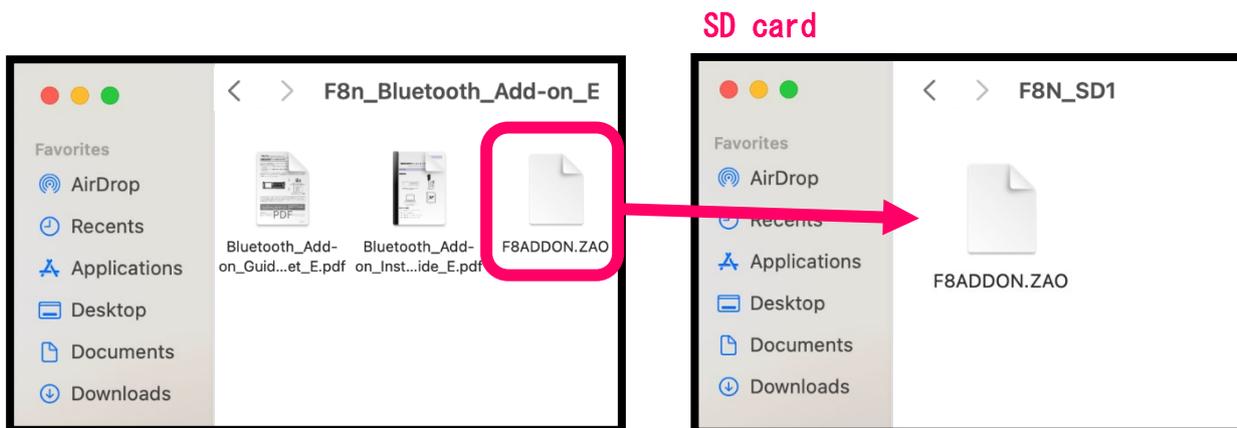

2. Extract the Zip file.

After downloading, open the ① “Downloads” folder, which appears at the right end of the Dock by default. Then, click ②. Downloaded files will be shown.

3. Copy the software extension file to an SD card.

Copy the “F8ADDON.ZAO” file to an SD card.

Software extension file

Copy the software extension file to an SD card.

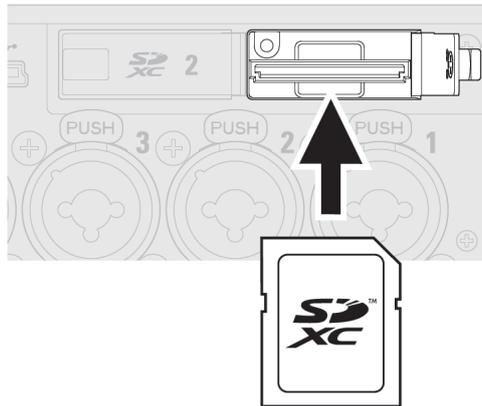

The following procedures are the same on both Windows and macOS.

4. Install new batteries in the F8n or connect an AC adapter.

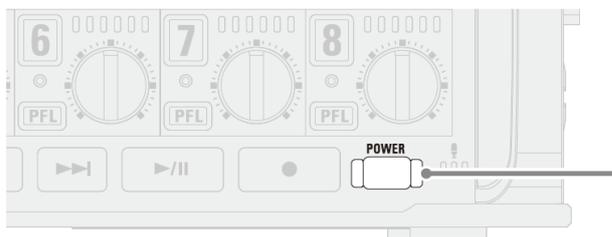

NOTE

Installing a software extension file is not possible if the remaining battery power is low.

5. Insert the SD card into the SD CARD 1 slot.

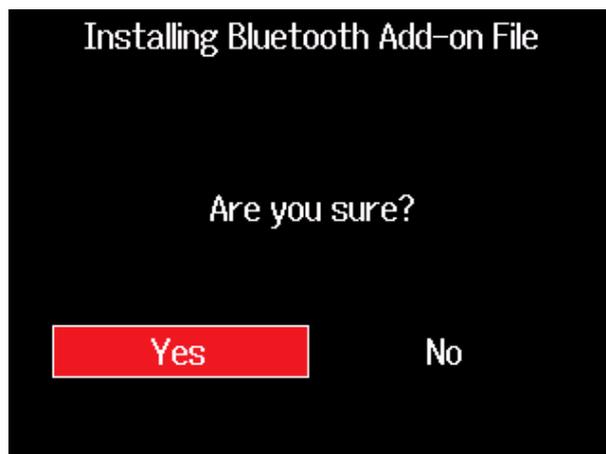

6. Turn the power on while pressing **MENU**.

Press and hold to turn the power on.

7. Use  to select "Yes", and press .

This starts installation of the software extension file.

NOTE

During installation of the software extension file, do not turn the power off or remove the SD card. Doing so could cause the F8n to become unstartable.

8. After the installing software extension file completes, turn the power off.

NOTE

In the unlikely event that installation of the software extension file should fail, conduct the procedures to install it again from the beginning.

Confirming that the software extension file has been installed correctly

If the software extension file has been installed in the product itself, the Bluetooth connection screen will become able to be shown.

1. Press and hold  on the HOME screen.
