|         | Redmi Note 10T         | 13 (MIUI 14)     | ●       | ●                      |       | X       | ●       |

1: The app itself cannot be used with this custom OS.

2: To use an OPPO device connected by USB, Settings > System settings (Additional settings) > OTG connection must be set to on.

(This must be set every time it is connected. It will be disconnected automatically after 10 minutes without transmission.)

3: Only Input 1 will be input. When used in STREAMING mode, all channels can be mixed and input.

Note: This information shows the results of operation confirmation conducted by our company.

This is not a guarantee that no issues will occur with the above devices.

## Android devices confirmed to work with the AMS-24

As of September 2023, the operation confirmed Android Devices are as follows.

| Brand   | Model                  | OS Ver.          | Cubasis | Spotify for Podcasters | Skype | YouTube | BandLab |

1: The app itself cannot be used with this custom OS.

2: To use an OPPO device connected by USB, Settings > System settings (Additional settings) > OTG connection must be set to on.  
(This must be set every time it is connected. It will be disconnected automatically after 10 minutes without transmission.)

3: Only Input 1 will be input. When used in STREAMING mode, all channels can be mixed and input.

4: Only Input 1/2 will be input. When used in STREAMING mode, all channels can be mixed and input.

Note: This information shows the results of operation confirmation conducted by our company.

This is not a guarantee that no issues will occur with the above devices.
