## Introduction

Thank you for downloading the ZOOM Q2n Web Cam Audio Driver.

This document describes how to install and uninstall the driver.

### Operation Environment Requirements

Operating system: Windows® 7 SP1 or later (32-bit / 64-bit)

Windows® 8.1 or later (32-bit / 64-bit)

Windows® 10 or later (32-bit / 64-bit)

#### **Precautions**

- 1) Start installation and uninstallation disconnecting Q2n from PC.**
- 2) Before starting this application, shut down all other applications that are running.**

## Updating the driver

If a ZOOM Q2n Web Cam Audio Driver is already installed, first uninstall the old driver.

Then install the new driver.

## Installation

1. Start Windows without any USB devices including Q2n (Except keyboard and mouse).
2. Shut down any applications that are running.
3. Double-click on the “Q2n-WebCamAudio.exe” icon.

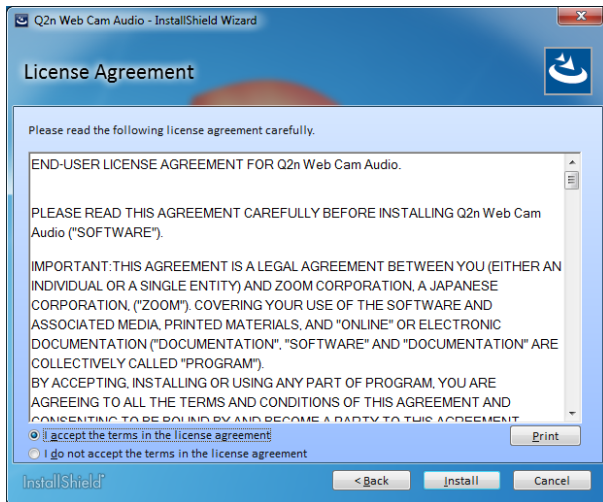

4. Select language and click [Next].

5. To start the installation, click [Next].

- The License Agreement is displayed. Read the agreement and place a check mark in the “I accept the terms in the License Agreement” box to confirm your acceptance of the agreement. To start the installation, click [Install].

When a warning message “Windows security” appears, click [Install].

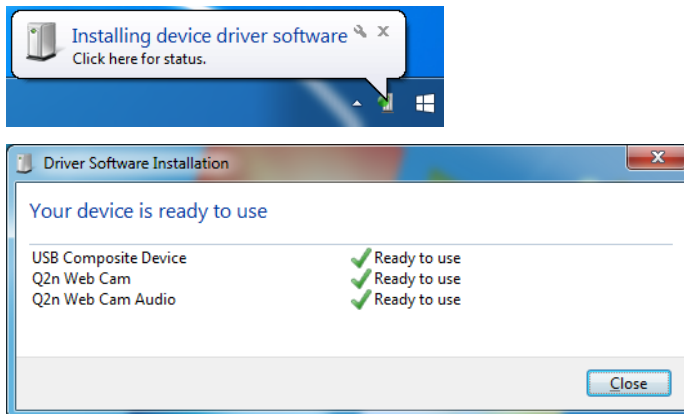

- Click [Finish] to finish installation of InstallShield.

8. Next, connect the Q2n to the computer using a USB cable and select the Web camera function.

When Q2n is connected to Computer, “Installing device driver software” will launch and it finish automatically.

## Uninstallation

1. Start Windows without any USB devices including Q2n (Except keyboard and mouse).
2. Shut down any applications that are running.
3. Click on the Start→All Programs→ZOOM→Q2n Web Cam Audio→"Uninstall Q2n Web Cam Audio" icon.

4. The uninstallation process starts. Confirm that you want to proceed by clicking [Yes]. To cancel the process, click [No].

\*The uninstallation is completed automatically.
