You can always download the latest system software for free on the web site shown below.
https://zoomcorp.com/

Version 3.10

・ **Released as following update in April 2022**
1. Updated firmware supports new electronic parts.

Version 3.00

・ **Released as function update in August 2021**
1. Enables Conference mode when connected to a computer or iOS/iPad device.
This allows use of the product as Ambisonic mic with online video conferencing applications.

Version 2.10

・ **Released as following bug fix in September 2019**
1. H3-VR cannot connect to iOS devices in iOS 13 / iPadOS 13 via Bluetooth.

Version 2.00

・ **Released as following function updates and bug fixes in March 2019**
■**Function Updates**
1. Added a function to receive timecode wirelessly from UltraSync BLUE by Timecode Systems and write timecode information to a recording file.
A dedicated wireless adapter connection is required to use this function.
2. Added remote control function when operating as an audio interface.
*For details please refer to the H3-VR Version 2.00 Supplementary Manual.
■**Bug Fix**
1. H3-VR sometimes freezes when booted or exiting from USB function.

Version 1.00

・ **Released as mass production in October 2018**
