L6 LiveTrak System Software Version History

You can always download the latest system software for free on the web site shown below.

https://zoomcorp.com/

Version 1.20

・Release to add the following function and fix the following issue in November 2026

■ Added function

1． A function to test the speed of microSD card writing has been added.

■ Fixed issue

1． If the unit was started up while a cord was plugged into the INPUT 6 R jack, stereo input would be activated for INPUT 5 regardless of its connection state (mono input with INPUT 5 would not be possible).

Version 1.10

・Release to add the following function and fix the following issue in January 2025

■ Added function

1. A function has been added that allows selection of the audio interface input and output channels setting. This responds to an issue in which some iPad DAW apps would not properly recognize the inputs and outputs.

■ Fixed issues

1. Other minor issues have been fixed.

Version 1.00

・ Released as mass production in September 2024
