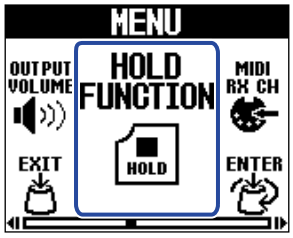
MS-90LP+ Version 1.10 Supplementary Manual

This supplementary manual explains a change in version 1.10.

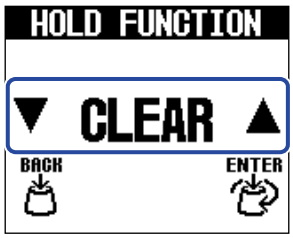
Setting the function of the STOP switch when held (HOLD FUNCTION)

In addition to the CLEAR function that clears the phrase, REVERT and OFF functions can now also be selected.

1. Select “HOLD FUNCTION” on the MENU Screen.



2. Turn the ENTER (MENU) knob to select a function.



Setting	Explanation
CLEAR	This clears the phrase completely from memory.
REVERT	This undoes the recording and restores the state when the phrase was last saved.
OFF	This disables the hold function. This can prevent phrases from being cleared accidentally.

3. Press ENTER.

This confirms the setting and reopens the Home Screen.
