<https://zoomcorp.com/>

Version 2.10

- **Release to fix the following issues in July 2026**

1. Exporting would fail if the track setting was "All".
2. Other minor issues have been fixed.

Version 2.01

- **Release to add the following functions and fix the following issue in April 2026**

- Added functions
 1. The TCA-1 timecode adapter is now supported.
 2. Input gain setting function.
 3. AI Noise Reduction function to analyze and reduce environmental sounds and other noise.
 4. Functions to record and play MP3 files.
 5. Function to export files in MP3 format.
 6. An "OFF" option has been added to the LED brightness setting.
- Fixed issue
 1. Pausing and resuming during long recordings would sometimes cause the unit to freeze without saving the recording file.

Version 1.01

- **Released as mass production in October 2024**
