- Orange: 20-50% space open
- Red: 20% or less space open
- Blinking red: No space open or unusable
- Unlit: No SD card loaded
Parts of the recorder (continued)

■ Top

■ Bottom

Installing the battery

Open the battery/SD card cover. Make sure the battery is facing the correct direction and push it in completely until it locks.

After confirming that the battery is locked, securely close the battery/SD card cover.

Unlock the battery before removing it.

Parts of the recorder (continued)

Attaching and detaching the LCD unit

Attaching the LCD unit

1. Align the LCD unit with the guide rail and push it in until it is attached.

Detaching the LCD unit

1. On the menu screen, select SETTING and press \( \mathbin{\text{ Locke } \large \text{ Button}} \).
   (See "Working with menus" on page 7.)

2. Use \( \uparrow / \downarrow \) to select "Remove LCD".

3. Press \( \mathbin{\text{ Locke } \large \text{ Button}} \).

4. Use \( \leftarrow / \rightarrow \) to select "Yes".

5. Press \( \mathbin{\text{ Locke } \large \text{ Button}} \).
   The LCD becomes blank.

6. While pressing the UNLOCK button in the recorder connection area, slide the LCD unit off.

NOTE

Recording is possible when the LCD unit is detached.
Main screen

Status icon
This shows the current operation status.

Level meters
These show the volume of the input audio. If the volume is too loud, peak indicators will stay lit.

Timecode
When recording, this shows the recording time. When paused, this shows the possible recording time.

Remaining battery charge
This shows the amount of remaining battery charge.

Monitoring volume
This shows the volume level (when using the VOL +/- keys).

Video quality setting
This shows the video size and number of frames.

Audio quality setting
This shows the audio format and bit rate.

Navigation buttons
These icons show the functions of the LCD unit operation buttons. They change according to the operation state.

SCENE setting
This shows the camera SCENE setting (VIDEO menu).

Input settings
This shows the audio input setting (built-in mic, external mic or line input).

LO CUT setting
This shows the use of noise reduction.

Mic gain
This shows the recording level setting.

NOTE
You can use the navigation buttons to change the angle of view.
: Make the angle of view narrower.
: Make the angle of view wider.
Working with menus

Use the menu to make detailed settings.

■ Open the menu screen

1. Press 🔄 while the main screen is open.

This opens the menu.

NOTE

If the LCD unit is turned, the navigation button display will change according to the positions of the unit operation buttons.
Working with menus

1. Use ← / → to select a menu item.

2. Press ⊕ to confirm a menu selection.
   The setting item list opens.

3. Use ↑ / ↓ to select a setting item.

4. Press ⊕ to confirm a setting selection.
   The setting value list opens.

5. Use ↑ / ↓ to select a setting value.

6. Press ⊕ to confirm a setting value.
   A check mark appears on the selected setting value.

7. To return to the main screen, press ← several times.
Charging the battery

1. Turn the Q4 off.

2. Connect to a USB power supply (running computer or ZOOM AD-17 AC adapter (sold separately)).
   The Charging LED stays lit while the battery is charging.

3. After charging completes, disconnect the cable from the USB power supply.
   After charging completes, the Charging LED becomes unlit.

NOTE

Charging a battery to 100% requires about three hours when connected to a computer and about two hours fifteen minutes when using an AC adapter.
(The amount of time required will vary depending on the conditions.)

CAUTION

- The recorder does not charge when it is on.
- The surrounding temperature should be between 5°C and 35°C (41°F and 95°F) when charging. At other temperatures, the battery could become hot, damaged or weakened.
- Do not leave the cable connected for a long time after charging completes.
- You must also follow the handling instructions in "Warnings and requests regarding safe battery use" on page 30.
Setting the time

When the date and time are set, the recorder can store accurate recording date and time information in files.

1. On the menu screen, select SETTING and press 🔄.
2. Use ↑ / ↓ to select Set Date.
3. Press 🔄.
4. Use ↓ to select each item.
5. Use ← / → to set the values for the current date and time.
6. After completing the setting, press ←.
Formatting SD cards

SD cards must be formatted by the 4 for use with it.

1. On the menu screen, select SETTING and press ．

2. Use ↑ / ↓ to select SD Format.

3. Press ．

4. Use ← / → to select "Yes"．

5. Press ．

The SD card will be formatted. Select "No" to return to the SETTING menu.

After formatting completes, "Done" will appear and the SETTING menu will reopen.

NOTE
If the SD card’s write-protection switch is ON, the card cannot be formatted.

CAUTION
- After purchasing a new SD card, always format it using the 4 to maximize performance.
- Be aware that all data previously saved on the SD card will be deleted when it is formatted.
Adjusting the recording level

You can adjust the recording level to suit the recording conditions.

■ Adjusting the recording level manually

1. Slide the GAIN switch to the MANUAL position.

   This turns automatic recording level adjustment off.

2. Use the MANUAL GAIN switch to adjust the recording level.

   - **H** High sensitivity (for field recording)
   - **M** Medium sensitivity (for solo and chamber music performances)
   - **L** Low sensitivity (for band performances and concerts)

   **NOTE**

   The MANUAL GAIN setting also affects external mics and line inputs.

■ Adjusting the recording level automatically

1. Slide the GAIN switch to the AUTO position.

   The Q4 will automatically set a suitable recording level.

   **NOTE**

   Use the AUDIO menu Auto Gain item to set how the recording level is automatically adjusted. (See "AUDIO settings" on page 15)
Reducing noise

Turn the low-cut filter on to reduce wind sounds and other noise.

1. Slide the LO CUT switch to ON.

NOTE

Cover the mic with the included windscreen to further reduce noise.

Monitoring audio

Using headphones, you can monitor the audio being recorded.

1. Connect headphones or other audio equipment to the headphones jack on the back of the recorder.

2. Use the VOL +/- keys to adjust the monitoring volume.
VIDEO settings

You can set the resolution, frame rate and other recording settings. Increasing the resolution decreases the possible recording time.

1. Use ↑ / ↓ to select an item.

2. Press ◀.

3. After completing the setting, press ◄.

Resolution: resolution and frame rate used when recording

Recording video

From the main screen, you can start recording video by pressing a single button.

1. After preparing to record, press \( \bigcirc \).
   
   This starts video recording.

2. Press \( \bigcirc \) again to stop recording.

NOTE

- If the transfer speed to the card is not fast enough during audio/video recording, “Low Speed Card!” appears on the screen and recording stops. To avoid this, we recommend using cards that are Class 4 or faster. Information about SD cards that can be used with this unit can be found at www.zoom.co.jp.
Playing recordings

You can play back recorded video.

1. Press ➤ on the main screen.
   This starts playback of the last recorded video.

2. Use ◀ / ▶ if you want to play a different file.

3. Press ■ to stop playback.
   The main screen reappears.

● Functions of other buttons

<table>
<thead>
<tr>
<th>Function</th>

</tr>
<tr>
<td>End pause</td>
<td>Press ➤ when paused</td>
</tr>
<tr>
<td>Adjust the volume</td>
<td>Press +/-</td>
</tr>
</tbody>
</table>

NOTE

- The 4 can only play back videos that it recorded.
- By connecting an HDMI cable (sold separately) to the HDMI OUT, video can be output to an external device. (See "HDMI output" on page 21)
- The FILE menu shows a thumbnail list of videos that you can use for playback selection. (See "FILE list" on page 24)
Deleting recordings

You can delete videos to increase the open space on the media.

1. Press 📞 on the main screen.

A list of videos appears.

2. Use ← / → to select the video that you want to delete.

3. Press ✔.

A check mark appears on the selected video.

Repeat steps 2 and 3 to add check marks to multiple videos.

4. Press ⏯/▶.

5. Use ↑ / ↓ to select "Delete Selected Files".

6. Press ⏯.

You can also use "Play File" to play a selected file.
Deleting recordings (continued)

7. Use ← / → to select “Yes”.

8. Press 📀.

The selected video will be deleted. Select “No” to cancel.

9. Use ↑ / ↓ to select “Exit Trash” and press 📀/▶ to return to the main screen.

10. Press 📀.
Connecting to the external input jack

Audio from an external mic or other audio equipment can be input and recorded.

1. Connect an external mic or other audio equipment to the EXT IN jack.
2. Press \( \mathcal{O} \).
   This starts recording.

**NOTE**

When an external device is connected to EXT IN, the built-in XY mic is disabled.

■ When using a mic that supports plug-in power

Make the following setting before connecting the mic.

1. On the menu screen, select AUDIO and press \( \mathcal{O} \).
2. Use \( \uparrow / \downarrow \) to select "Plugin Power".
3. Press \( \mathcal{O} \).
4. Use \( \uparrow / \downarrow \) to select "On".
5. Press \( \mathcal{O} \).
Headphones/line output jack

You can listen to the audio with headphones or an external audio amplifier.

1. Connect headphones or audio equipment to the headphones jack using a stereo mini plug cable.
2. Start video playback on the Q4.

HDMI output

Use an HDMI cable to connect with an HDMI TV to show recordings in high definition.

1. Connect the HDMI jack with a TV using an HDMI cable (commercially-available).
2. Start video playback on the Q4.

NOTE

Some TVs support different audio formats, so correct playback might not be possible with them.

CAUTION

The HDMI jack uses a Type D Micro connector. When using an HDMI cable (sold separately), be sure to use a High Speed HDMI (category 2) cable that has a Type D Micro connector on one end to connect to the Q4 and a connector that matches your TV’s HDMI input on the other.
USB connections

By connecting with a computer or iPad using a USB cable, you can use this recorder as a USB mic and to stream audio and video as a web camera.

Using as a card reader or mic (computer/iPad)

1. Select USB on the menu screen and press 📈.

2. Use ← / → to select "Card Reader" or "USB Mic".

3. Press 📈.

4. Use ↑ / ↓ to select "PC/MAC" or "iPad" according to the type of device connected.

5. Press 📈.

6. Use a USB cable to connect a computer or an iPad.

7. To end use, conduct the necessary procedures to end the USB connection from the computer and then disconnect the USB cable.

NOTE

- Use the EXIT TO HOME menu item to return to the main screen.
- When connected to a computer, power can be supplied by USB. When connected to an iPad, power cannot be supplied by USB.
- An iPad Camera Connection Kit (sold separately) is necessary to connect an iPad.
Using as a web camera (computer)

Download the audio driver necessary for use as a web camera from the ZOOM website (www.zoom.co.jp).

1. Use the USB cable to connect to the computer, select USB on the menu screen and press 🔗.

2. Use ← / → to select "WebCam".

3. Press 🔗.

4. Use the 📚 as a web camera for computer streaming and other applications.

5. To end use as a web camera, stop streaming on the computer and disconnect the USB cable.

- Use the EXIT TO HOME menu item to return to the main screen.
- The recorder can simultaneously transmit video of up to HD720p and 48kHz/16bit quality PCM audio to a computer.
- The 📚 cannot output computer playback signals.

Delay setting
When using the recorder as a web camera, if the streaming application does not have a lip synchronization function, you can use + / - to set the audio delay time so that it matches the timing of the video.
LCD Rotation settings

You can lock the rotation of the LCD screen.

1. Use ↑ / ↓ to select an item.
2. Press ◀.
3. After completing the setting, press ◀.

<table>
<thead>
<tr>
<th>Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unlock</td>
<td>Rotate the screen according to LCD unit orientation.</td>
</tr>
<tr>
<td>Lock</td>
<td>Keep the screen in the current state.</td>
</tr>
</tbody>
</table>

FILE list

Use this menu to view video files saved on the SD card in a thumbnail list and play them back.

1. Use ← / → to select a video.
2. Press ◀ to start playback of the selected video.
3. Press ◀ to return to the FILE menu from video playback.
4. Press ◀ to return to the menu screen.
System settings

Make settings related to the Q4 system.

1. Use ↑ / ↓ to select an item.
2. Press ☀.
3. After completing the setting, press ◀.

<table>
<thead>
<tr>
<th>Setting</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Set Date</td>
<td>Set the date and time of the Q4 internal clock. (See &quot;Setting the time&quot; on page 10.)</td>

<td>Select before removing the LCD unit during operation. (See &quot;Attaching and detaching the LCD unit&quot; on page 5.)</td>
</tr>
<tr>
<td>Information</td>
<td>View the Q4 system version and space available for recording.</td>
</tr>
</tbody>
</table>
Upgrading the firmware version

Upgrade the firmware version when necessary.

NOTE
You can check the firmware version using the Information item in the Setting menu.

1. Copy the file for upgrading the firmware to the root directory on the SD card.
   - The latest version of the firmware can be downloaded from www.zoom.co.jp.

2. Insert the SD card into the unit’s card slot.

3. While pressing and holding ( ), press ( ) until the unit starts and the Firmware update screen opens.

4. If the contents of the version update shown are as desired, use ← / → to select “Yes”.

5. Press ( ).

6. When updating the version completes and "Complete!" appears, press ( ) for at least one second to shut down.

CAUTION
Upgrading the firmware version is not possible if the remaining battery power is low.

Safety Precautions

In this User Guide, symbols are used to highlight warnings and cautions that you must read to prevent accidents. The meanings of these symbols are as follows.

**Warning**
Something that could cause serious injury or death

**Caution**
Something that could cause injury or damage to the equipment

Other symbols used

- ⚠️ An action that is mandatory
- ☝️ An action that is prohibited

### Warnings

#### Operation using an AC adapter

- ⚠️ Use only a ZOOM AD-17 AC adapter (sold separately) with this unit.

- ⚠️ Do not do anything that could exceed the ratings of outlets and other electrical wiring equipment.

#### Alterations

- ☝️ Do not open the case or modify the product.

### Precautions

#### Product handling

- ☝️ Do not drop, bump or apply excessive force to the unit.

- ☝️ Be careful not to allow foreign objects or liquids enter the unit.

#### Operating environment

- ☝️ Do not use in extremely high or low temperatures.

- ☝️ Do not use near heaters, stoves and other heat sources.

- ☝️ Do not use in very high humidity or where it could be splashed by water.

- ☝️ Do not use in places with frequent vibrations.

#### AC adapter handling

- ⚠️ When disconnecting the power plug, always pull on the power plug itself.

- ⚠️ When not using the unit for a long time, disconnect the power plug from the outlet.

You might need this User Guide in the future. Always keep it in a place where you can access it easily.
Usage Precautions

■ Interference with other electrical equipment
In consideration of safety, the Q4 has been designed to minimize its emission of electromagnetic waves and to suppress interference from external electromagnetic waves. However, equipment that is very susceptible to interference or that emits powerful electromagnetic waves could result in interference if placed nearby. If this occurs, place the Q4 and the other device farther apart.
With any type of electronic device that uses digital control, including the Q4, electromagnetic interference could cause malfunction, corrupt or destroy data and result in other unexpected trouble. Always use caution.

■ Cleaning
Use a soft cloth to clean the exterior of the unit if it becomes dirty. If necessary, use a damp cloth that has been wrung out well.
Never use abrasive cleansers, wax or solvents such as alcohol, benzene or paint thinner.

■ Breakdown and malfunction
If the unit becomes broken or malfunctions, immediately disconnect the AC adapter, turn the power OFF and disconnect other cables. Contact the store where you bought the unit or ZOOM service with the following information: product model, serial number and specific symptoms of breakdown or malfunction, along with your name, address and telephone number.

■ Copyrights

Windows is a trademark of Microsoft Corporation (USA). Apple, Macintosh, iPad, QuickTime and the QuickTime logo are registered trademarks or trademarks of Apple Inc. in the USA and other countries.
The SD, SDHC and SDXC logos are trademarks. HDMI (High-Definition Multimedia Interface) and are trademarks of HDMI Licensing, LLC. Other product names, registered trademarks and company names in this document are the property of their respective companies.

Recording for any purpose other than personal use from copyrighted sources, including CDs, records, tapes, live performances, video works and broadcasts, without permission of the copyright holder is prohibited by law.
Zoom Corporation will not assume any responsibility related to infringements of copyrights.
Warnings and requests regarding safe battery use

Carefully read the following warnings in order to avoid serious injuries, burns, fires and other problems caused by leaking, heat generation, combustion, rupture or accidental swallowing.

⚠️ DANGER

- Do not charge the lithium-ion battery (BT-02) in any way other than using the AD-17 (sold separately) or a USB port.
- Do not disassemble the battery, put it in fire, or heat it in a microwave oven or conventional oven.
- Do not leave the battery next to a fire, in strong sunlight, inside a vehicle that has become hot or similar conditions. Do not recharge in conditions like these.
- Do not carry or store the battery with coins, hairpins or other metal objects.
- Do not allow the battery to be made wet by water, seawater, milk, soft drinks, soapy water or other liquids. Do not charge or use a battery that is wet.

⚠️ CAUTION

- Do not hit the battery with a hammer or other object. Do not step on it or drop it. Do not otherwise impact or apply force to the battery.
- Do not use the battery if it becomes deformed or damaged.
- Do not remove or damage the outer seal. Never use a battery that has had all or part of its outer seal removed or a battery that has been torn.

Please recycle batteries to help conserve resources. When discarding used batteries, always cover their terminals and follow all laws and regulations that are applicable to the location.

For Australia and New Zealand

This equipment complies with the RCM marking requirement.
This equipment complies with the requirements of the applicable ACMA and RSM’s technical standards.

The contents of this document and the specifications of the product could be changed without notice.
FCC regulation warning (for U.S.A.)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

For EU Countries

Declaration of Conformity

Disposal of Old Electrical & Electronic Equipment (Applicable in European countries with separate collection systems)

Products and batteries that have been marked with the symbol of a crossed-out wheeled waste bin must not be disposed of with household waste.

Old electrical/electronic equipment and batteries should be recycled at facilities that are able to process them and their byproducts. Contact the local government for information about nearby recycling facilities. Conducting recycling and waste disposal properly helps conserve resources and prevents harmful impacts on human health and the environment.

THIS PRODUCT IS LICENSED UNDER THE AVC PATENT PORTFOLIO LICENSE FOR THE PERSONAL AND NONCOMMERCIAL USE OF A CONSUMER TO

(i) ENCODE VIDEO IN COMPLIANCE WITH THE AVC STANDARD (“AVC VIDEO”) AND/OR
