Introduction

ZOOM Handy Control & Sync is a remote control application for ZOOM recorder products.
An iPhone/iPad/Android device can be connected to multiple recorders and used to simultaneously start and stop recording, synchronize timecode and set the date and time.
Note that this manual does not explain operation of the recorders themselves. See the product operation manuals for detailed explanations about them.

Installing ZOOM Handy Control & Sync

iOS / iPadOS

1. **Open the App Store on the iPhone/iPad and search for “ZOOM Handy Control & Sync”.**

2. **Tap "GET" on the ZOOM Handy Control & Sync screen.**
   This will install ZOOM Handy Control & Sync.

Android device

1. **Open Google Play on the Android device and search for “ZOOM Handy Control & Sync”.**

2. **Tap “Install” on the ZOOM Handy Control & Sync screen.**
   This will install ZOOM Handy Control & Sync.

Connecting with recorders

NOTE

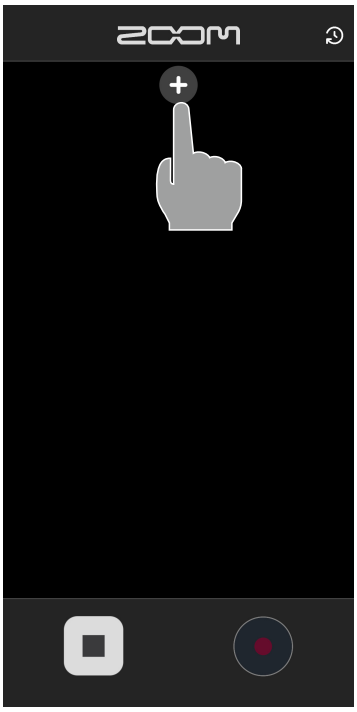
- A BTA-1 or another dedicated wireless adapter (sold separately) must be installed in the recorder itself to remotely control it from an iPhone/iPad/Android device. See the operation manual of that recorder for details.

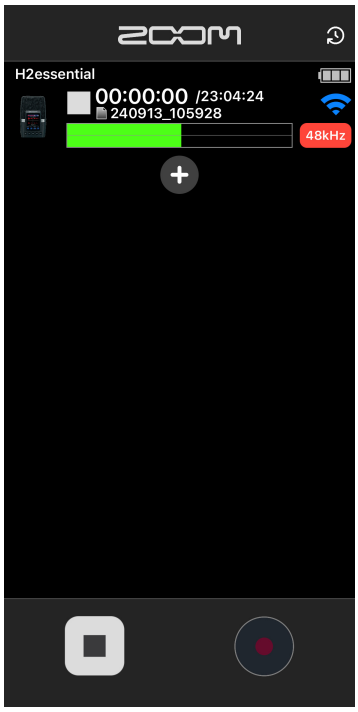
1. **Referring to the recorder manual, prepare it for Bluetooth connection.**

2. **Tap the ZOOM Handy Control & Sync icon on the iPhone/iPad/Android device.**

3. **Tap the + icon.**

   This opens a Bluetooth device list in ZOOM Handy Control & Sync. Tap the recorder name/ID to start connecting.
   When connection completes, the status of connected recorders will be shown.
   * The images below show an example of an iPhone screen.

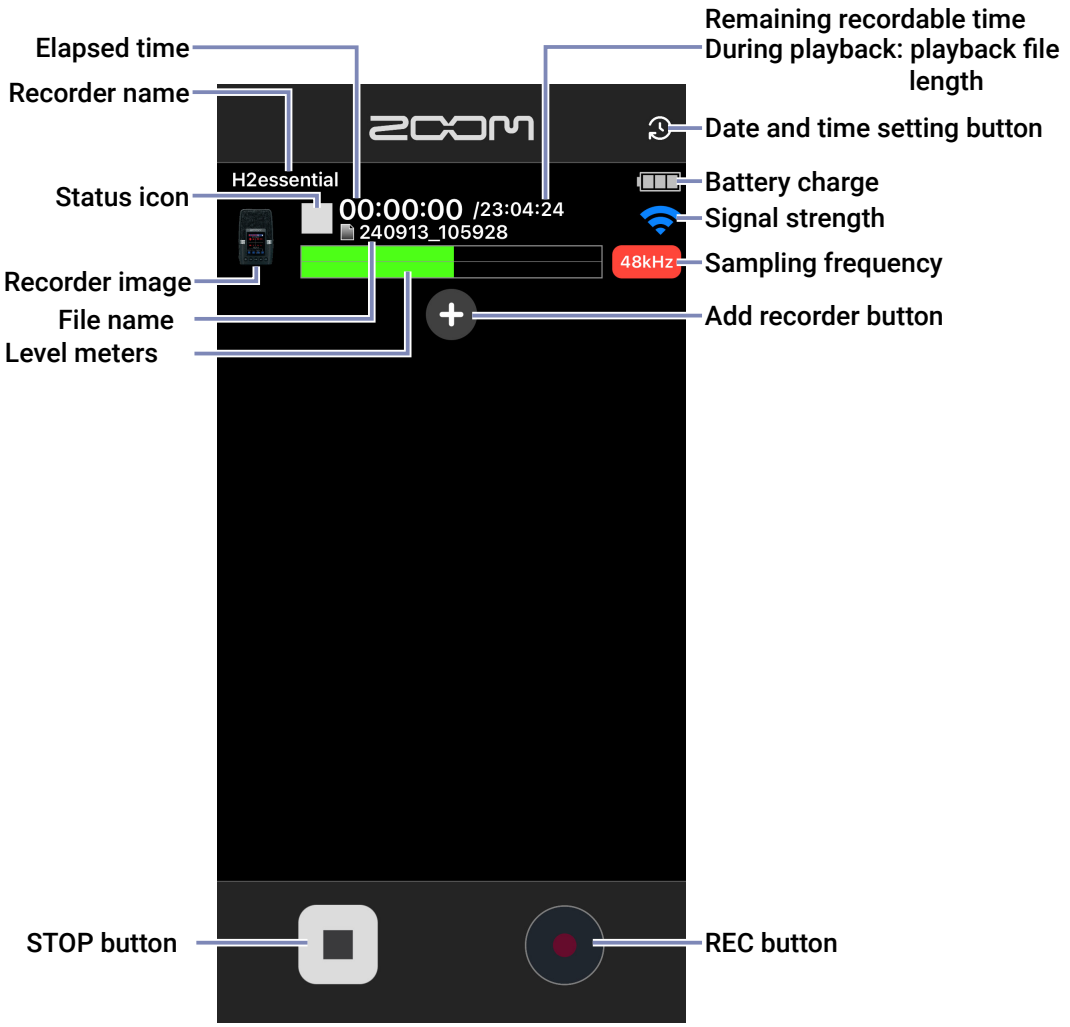




NOTE

- If connection is not successful, move the device closer to the recorder or move both to a place where nothing interferes with radio waves and start ZOOM Handy Control & Sync again. Confirm also that the Bluetooth function of the iPhone/iPad/Android device is enabled.
- A maximum of 10 recorders can be connected to the device (this may be 7 to 8 recorders depending on the device).

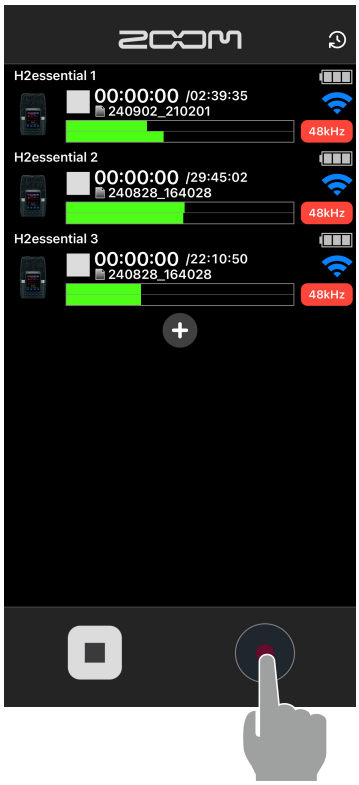
Using screens



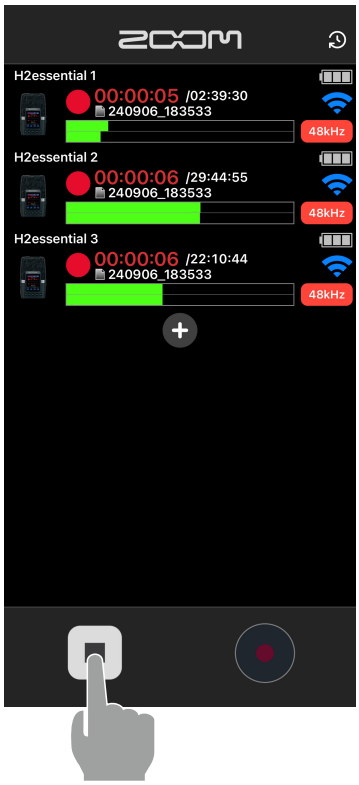
Recording

1. Tap .

This will simultaneously start recording on all connected recorders.



2. Tap to stop.

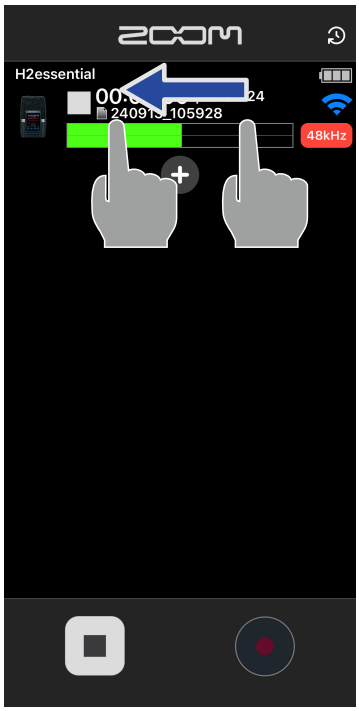


NOTE

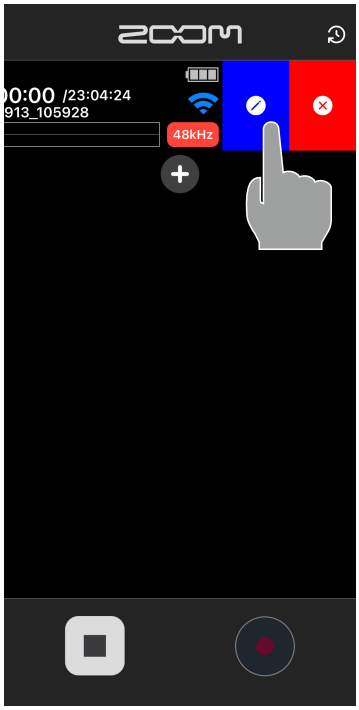
- Timecode data sent from the iPhone/iPad/Android device is added to recording files. This enables synchronization when editing afterward if multiple recorders were connected and used to record simultaneously.

Changing recorder names (for iPhone/iPad)

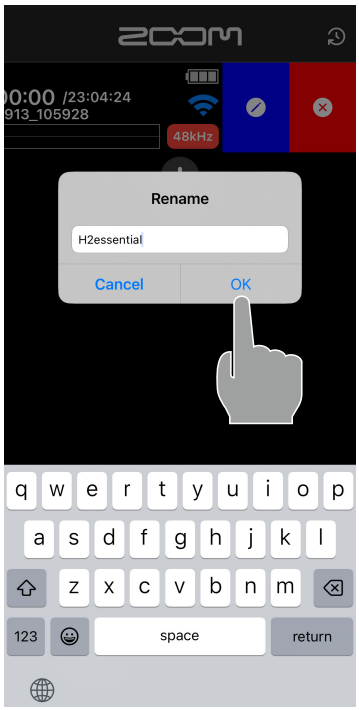
1. Swipe left on the recorder display area.



2. Tap .



3. Input the desired name and tap “OK”.

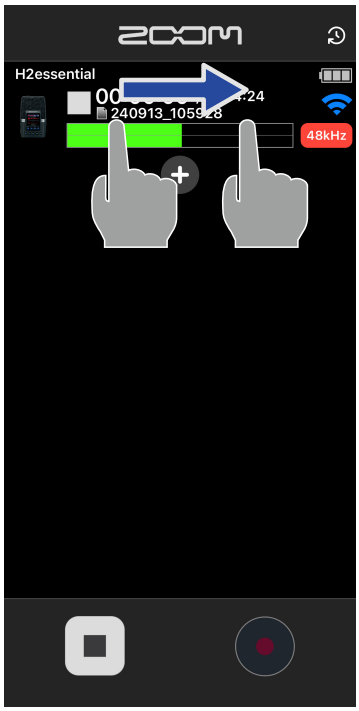


NOTE

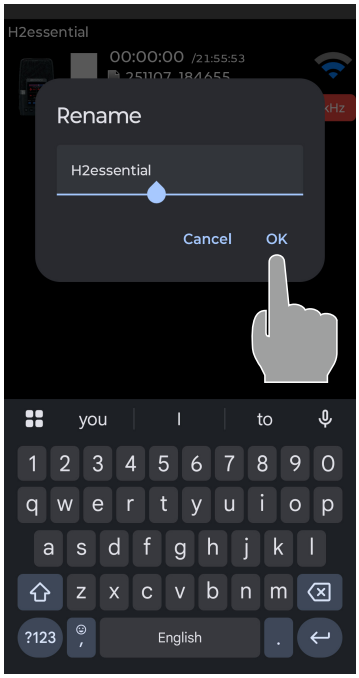
- The following characters can be input.
  (space) !”#$%&’()*+,-./0123456789:;<=>?@ABCDEFGHIJKLMNOPQRSTUVWXYZ[\]^_`
  abcdefghijklmnopqrstuvwxyz{|}~
- Up to 15 characters can be input.

Changing recorder names (for Android device)

1. **Swipe right on the recorder display area.**



2. **Input the desired name and tap “OK”.**



NOTE

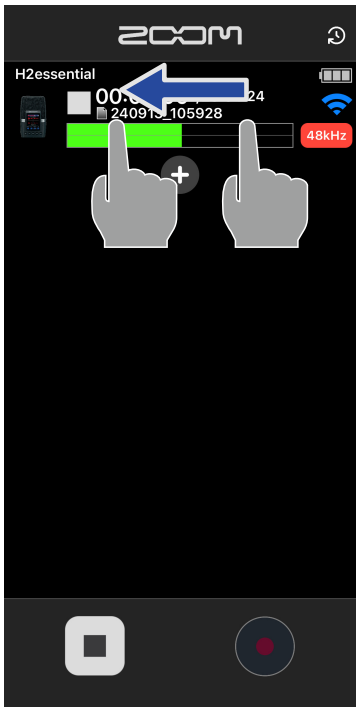
- The following characters can be input.

  (space) !”#$%&’()*+,-./0123456789:;<=>?@ABCDEFGHIJKLMNOPQRSTUVWXYZ[\]^_`
  abcdefghijklmnopqrstuvwxyz{|}~

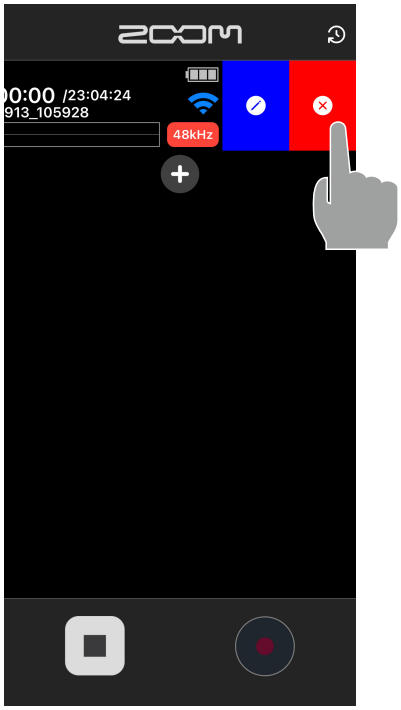
- Up to 15 characters can be input.

Disconnecting (for iPhone/iPad)

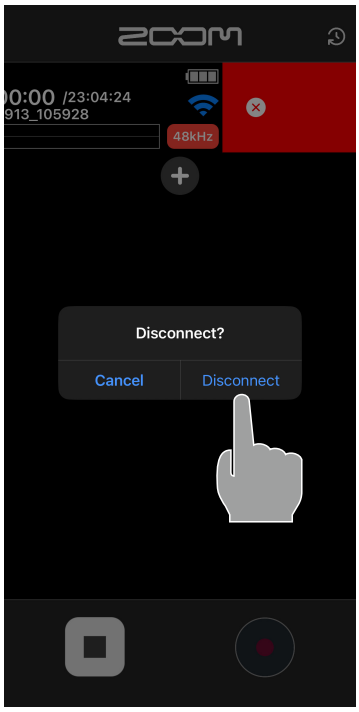
1. Swipe left on the display area on the recorder to be disconnected.



2. Tap .

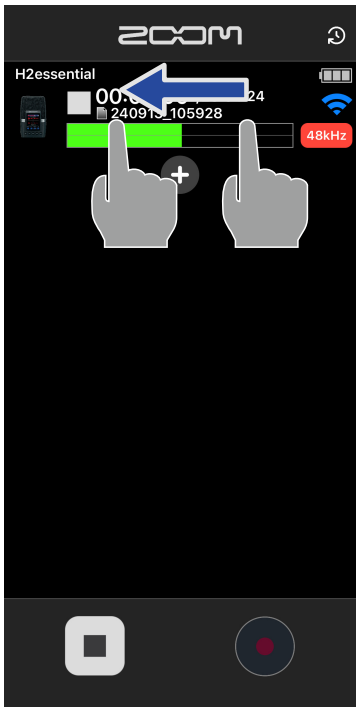


3. Tap “Disconnect” to disconnect the recorder.

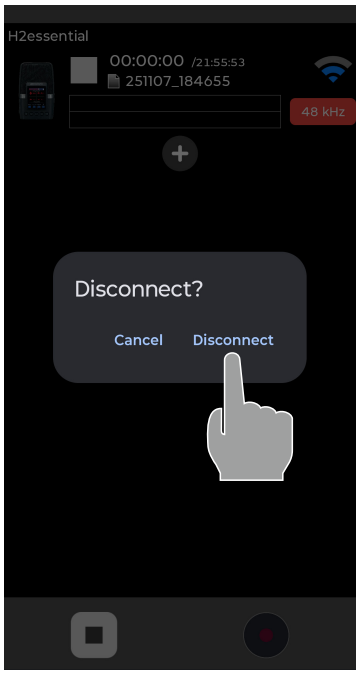


Disconnecting (for Android device)

1. Swipe left on the display area on the recorder to be disconnected.



2. Tap “Disconnect” to disconnect the recorder.



Setting the date and time

1. Press .

This will set all connected recorders to the same date and time as the iPhone/iPad/Android device.
