■ Installation and updating

If the application has already been installed, following these installation procedures will update it by reinstalling it.

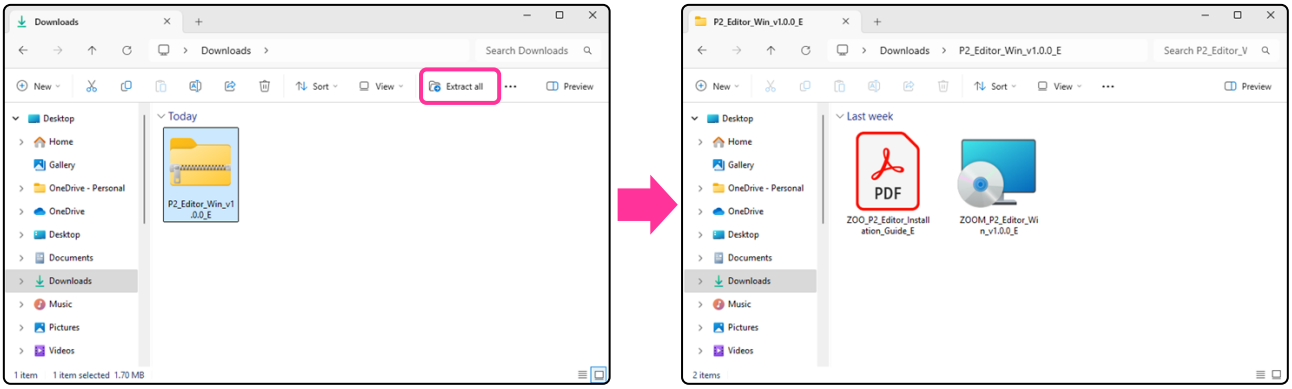
Disconnect the product from the computer before installation/uninstallation.

Close all other running applications before launching this application.

1. Download the Windows file.
   Download the ZIP file that contains the installer from the P2 support & downloads page (zoomcorp.com/help/p2).

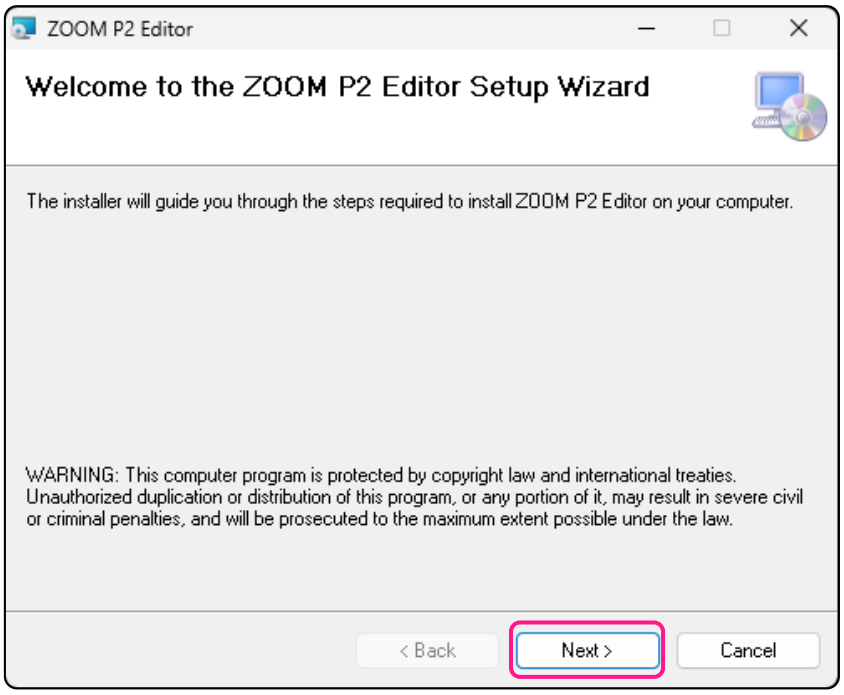
2. Extracting the ZIP file.

Select the folder where you downloaded the ZIP file, and click "Extract All". The ZIP file will be extracted.

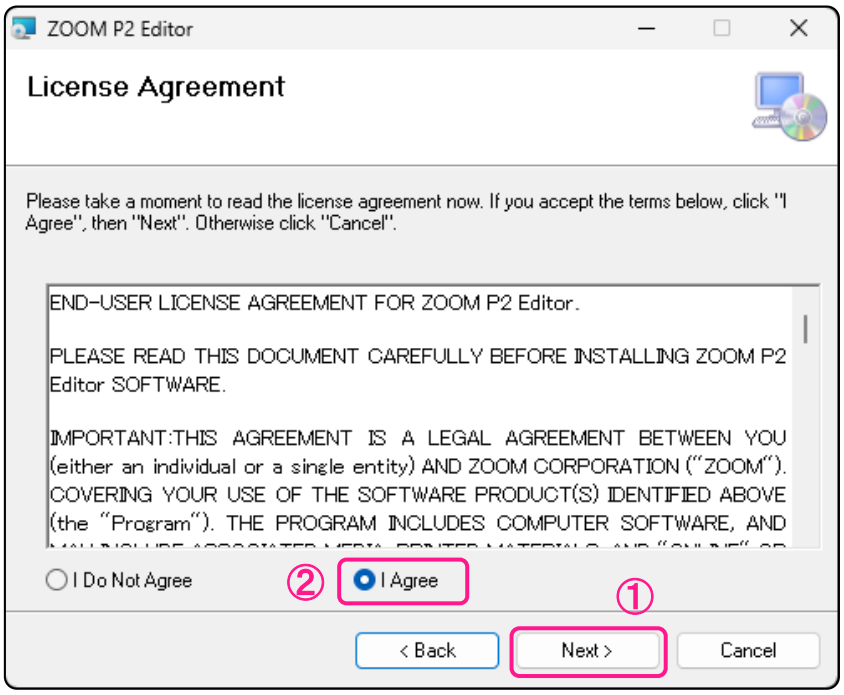


3. Double-click the installer file.

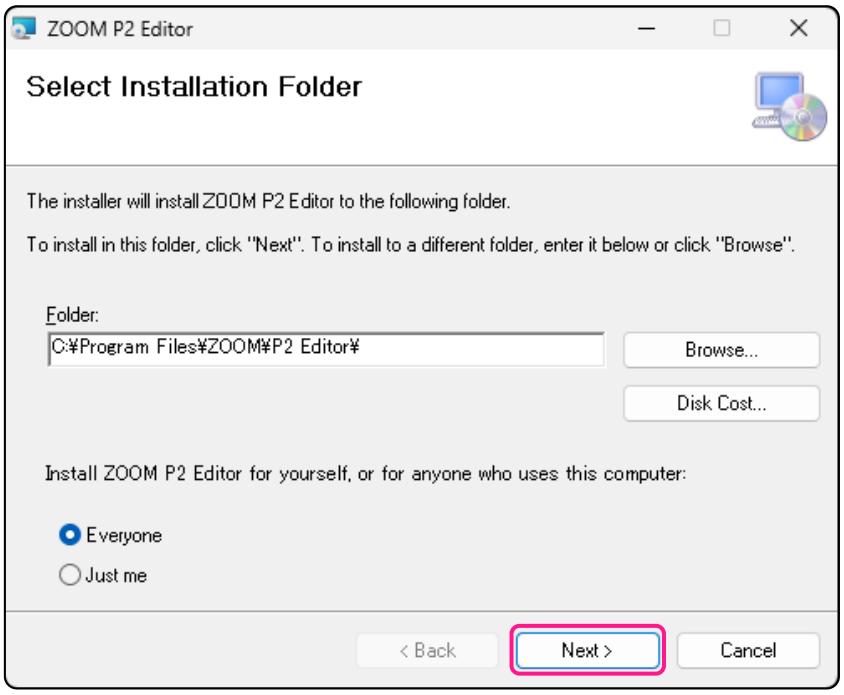
4. Click “Next >”.



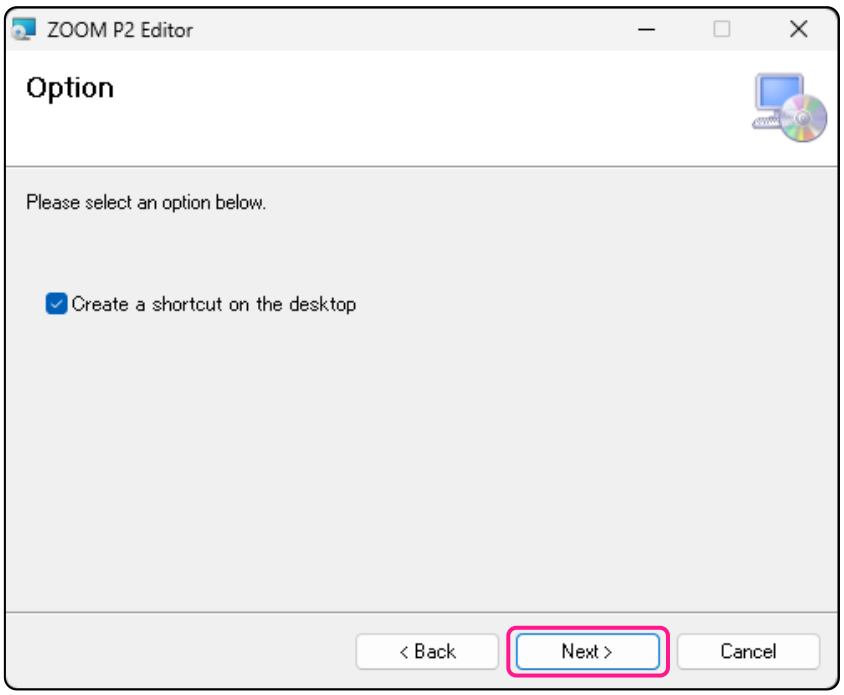
5. This opens the License Agreement. After carefully reviewing the content, check “I accept the terms in the license agreement” if you accept it, and click “Install”.



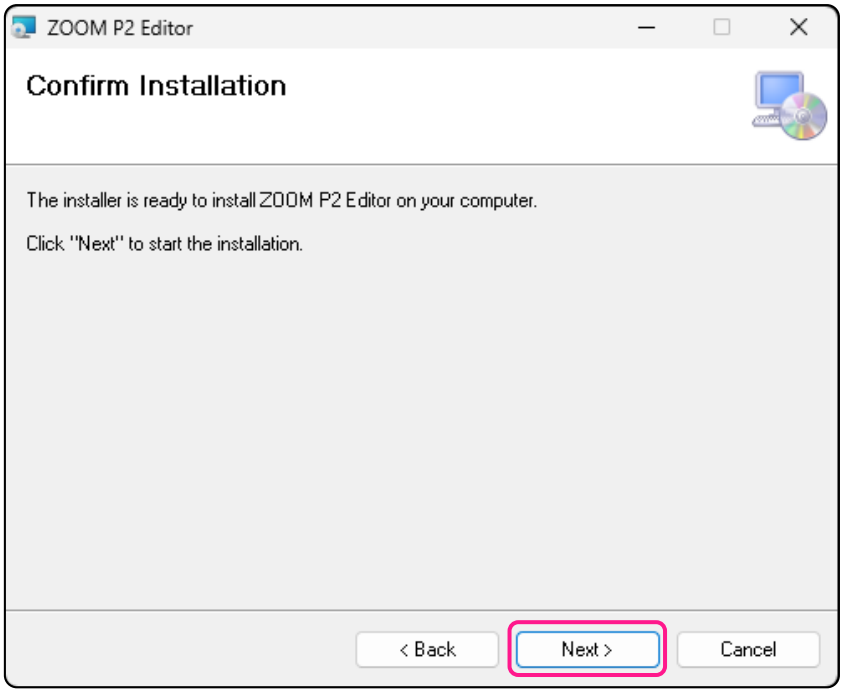
6. Click “Next >”.



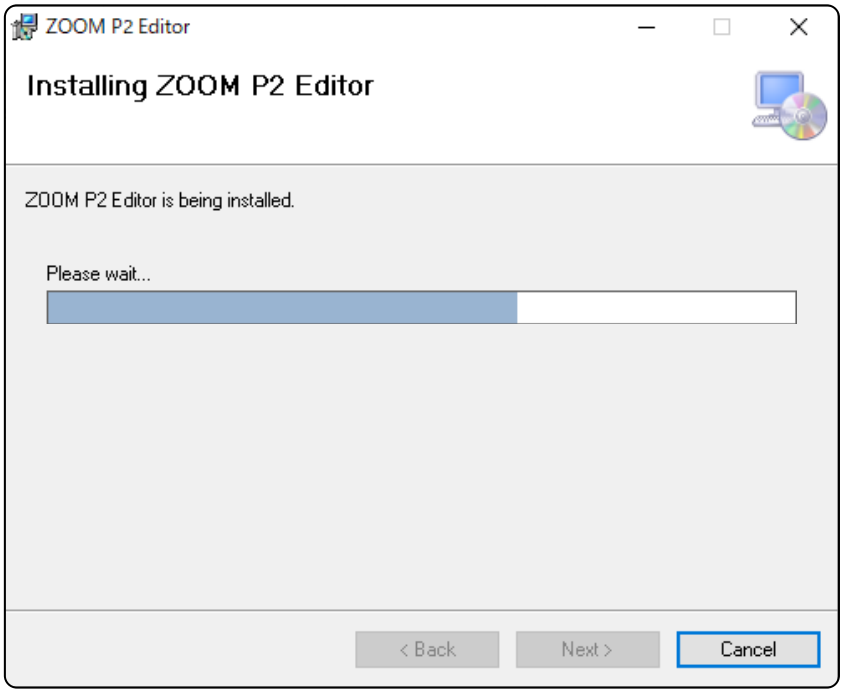
7. Click “Next >”.



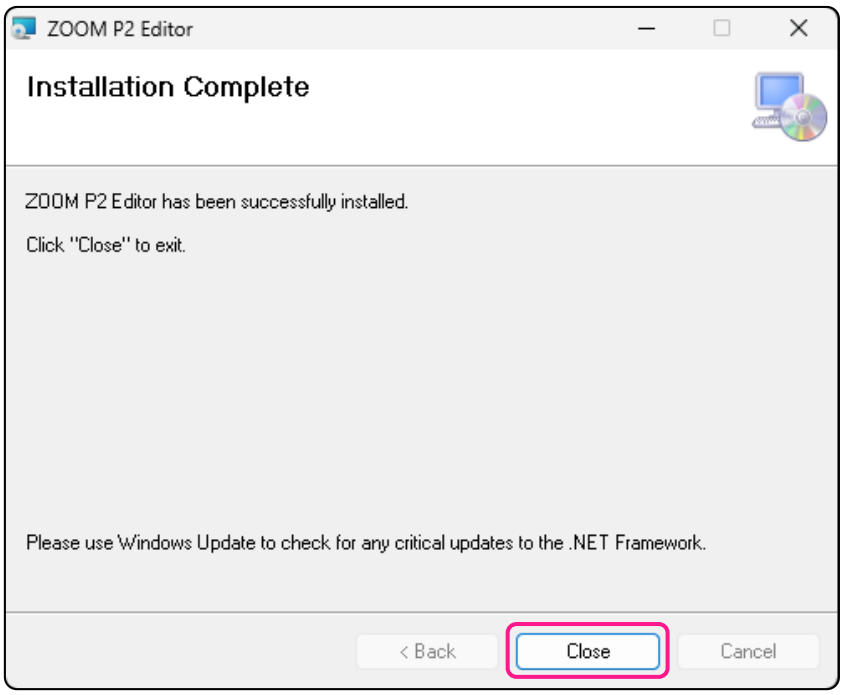
8. Click “Next >”.
When “Do you want to allow this app to make changes to your device?” appears in a pop-up, select “Yes”.



9. This starts installation.



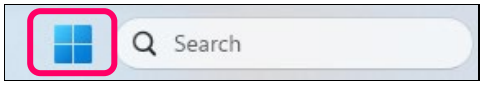
10. Click “Close” to complete installation.



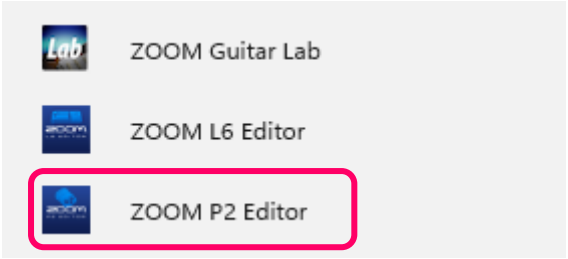
■ Confirming installation

Follow the procedures below to check whether or not the application has been installed.

1. Open the Start menu.

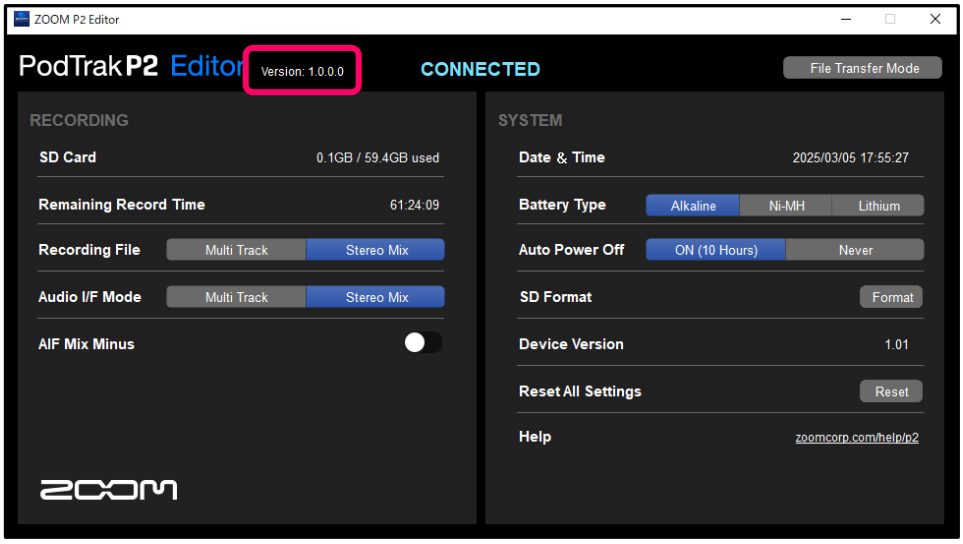


2. Open the “ZOOM” folder, and click this application.



3. Check the version.

   Confirm that it is the latest version.



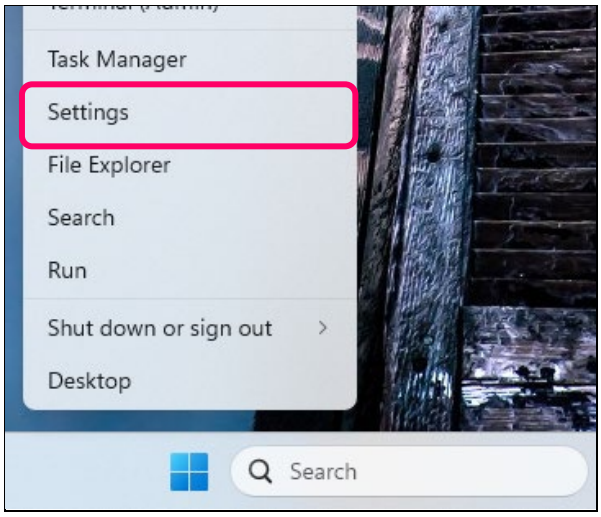
HINT

Try the following if you cannot find the application.

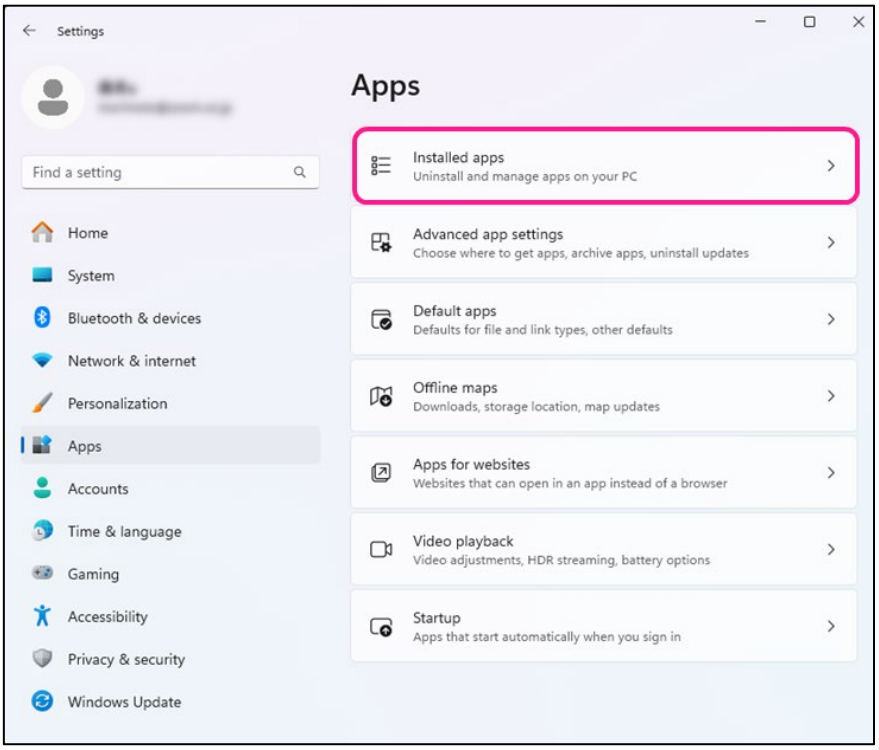
- Check the name of the installed application.
- Search in the search box on the taskbar.
- Install the application again.

■ Uninstallation

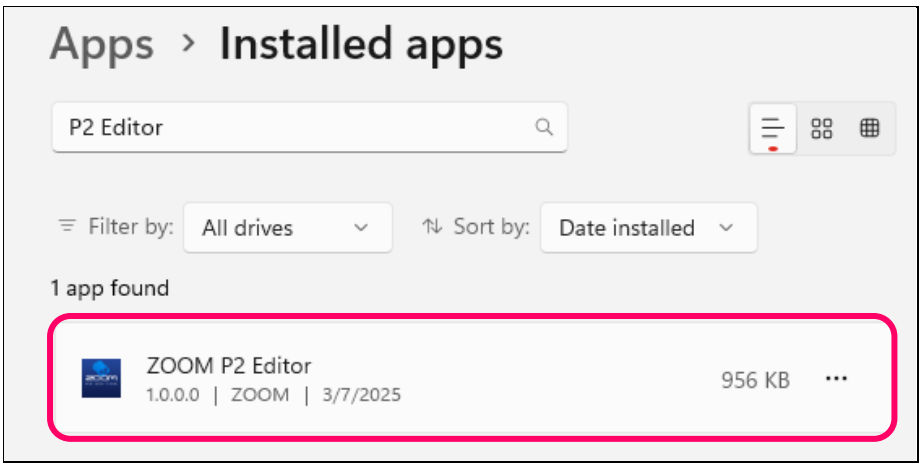
1. Right-click the Start menu and open Settings.



2. Select **Installed apps** from **Apps**.



3. Select the app from **Installed apps**.



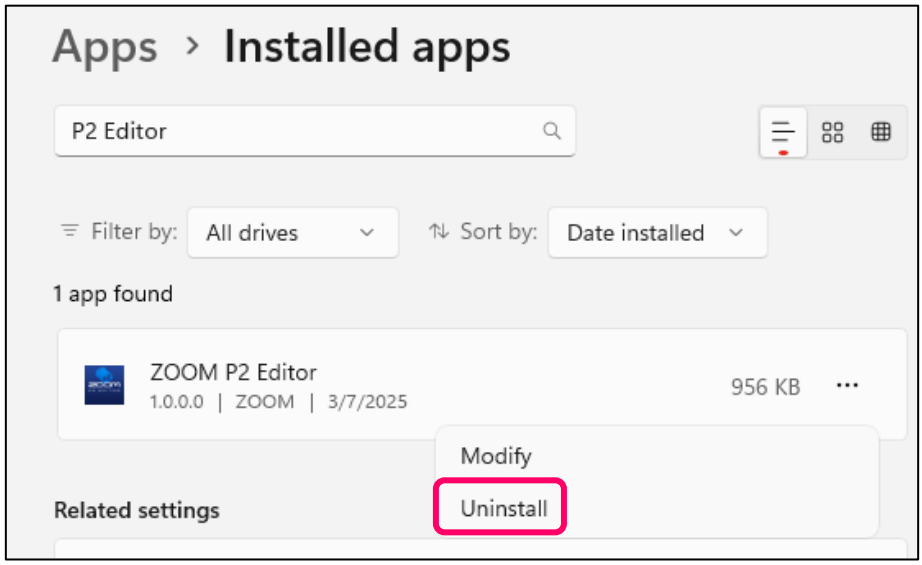
HINT

Try the following if you cannot find the application.

- Check the name of the installed application.
- Change Sort by to Install date before searching.
- Install the application again.

---

4. Select **Uninstall** to execute uninstallation.
   When “Do you want to allow this app to make changes to your device?” appears in a pop-up, select “Yes”.



For Mac

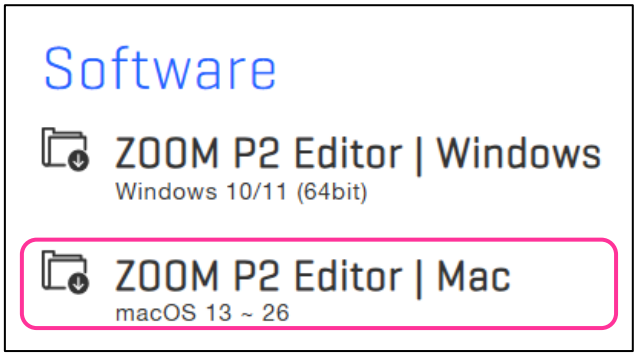
■ Installation and updating

If the application has already been installed, following these installation procedures will update it by reinstalling it.

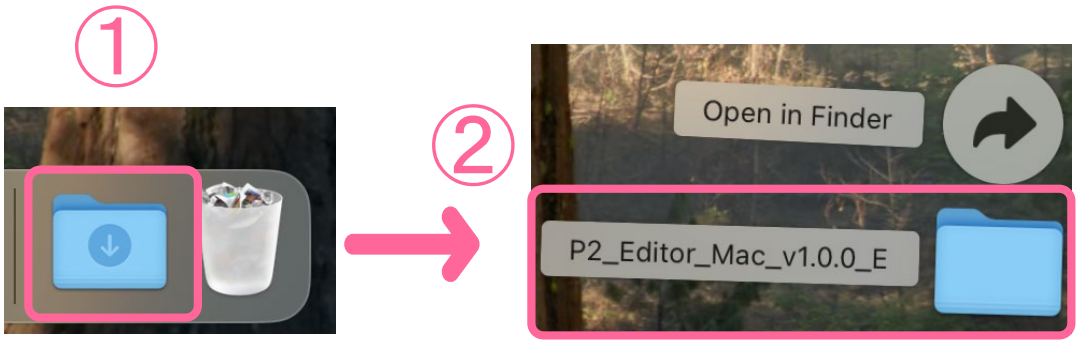
Disconnect the product from the computer before installation/uninstallation.

Close all other running applications before launching this application.

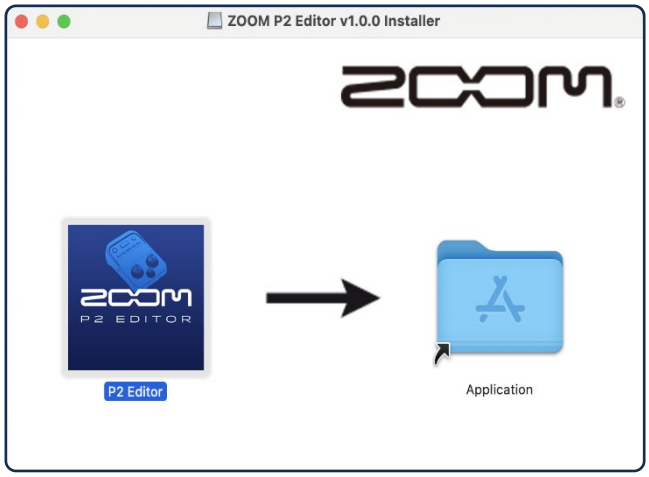
1. Download the Mac file.
   Download the ZIP file that contains the installer from the P2 download page.



2. Open the file.
   After downloading, click ① “Downloads”, which appears at the bottom of the screen by default. Then, click ②. This will open the dmg file.



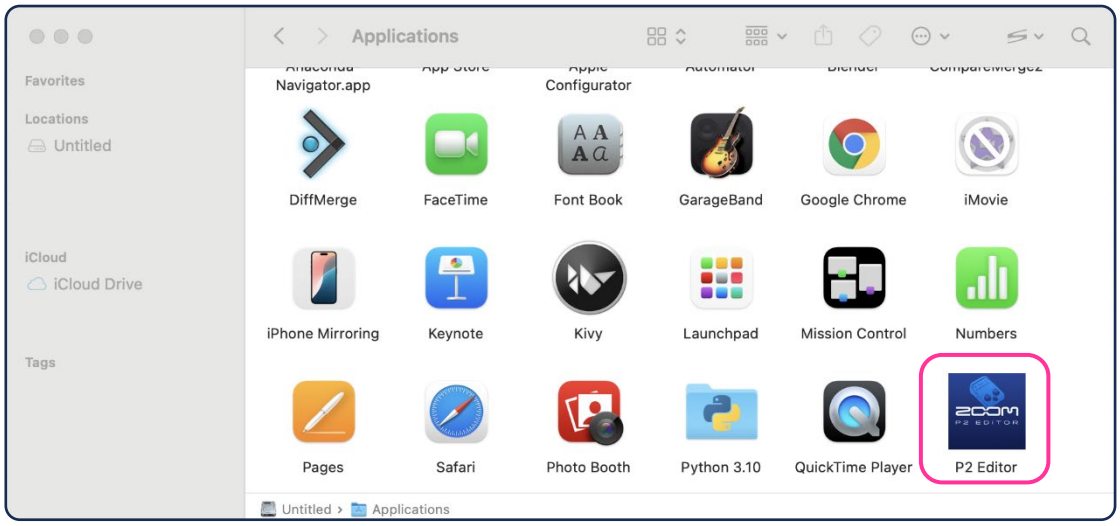
3. Drag the P2 Editor file and drop it into the Applications folder.



■ Confirming installation

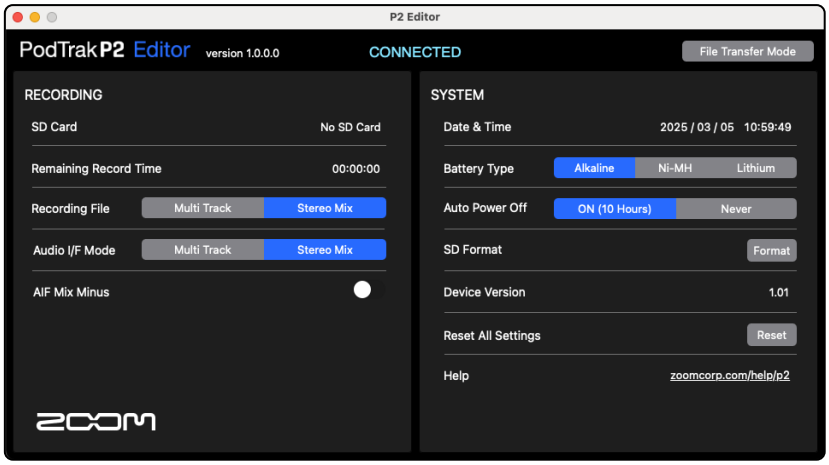
Follow the procedures below to check whether or not the application has been installed.

1. From the Applications folder, open the “P2 Editor”.



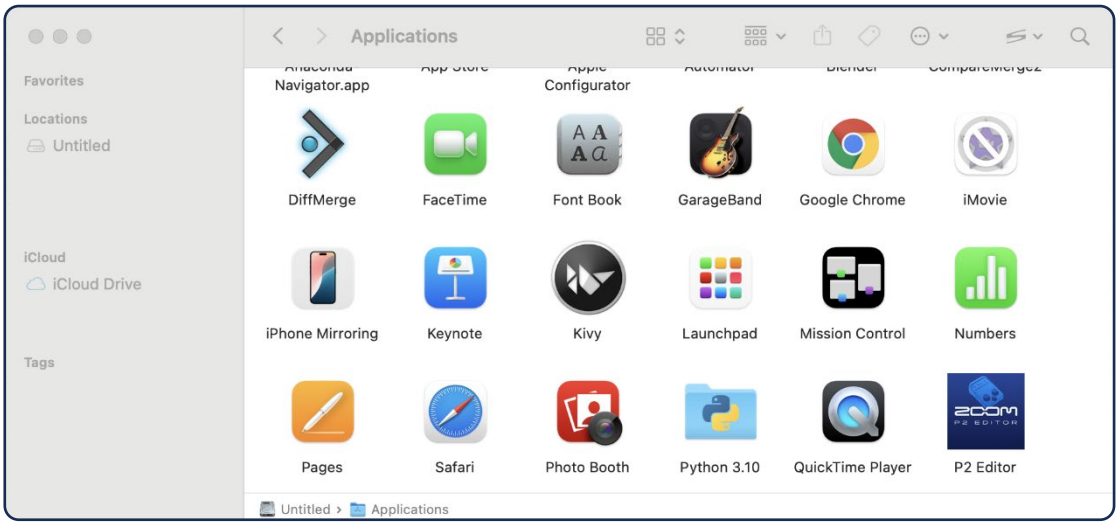
2. Check the version.

   Confirm that it is the latest version.



■ Uninstallation

1. Open the Application folder.



2. Drag the “P2 Editor” to the trash or select it and choose File > Move to Trash.
